Administrative Affairs
2006-07 Strategic Budget Priorities

• Administrative Affairs’ commitment is to provide high quality support services to achieve UWF’s vision of being the best regional comprehensive university in America.

• Administrative Affairs will focus its management efforts during 2006-07 upon preserving and enhancing its support services through empowerment of staff, quality improvement initiatives, business process redesign efforts, resource reallocation, and energy conservation actions.

• Administrative Affairs seeks additional resources to achieve the following three priorities:

   1. Preservation of existing Facilities’ staff and services by restoring partial funding to the existing recurring budget reduction in Facilities Services.

   2. Maintenance of the integrity of the University’s energy services to all facilities through a fully funded utility budget.

   3. Promotion of electronic payment of student fees through the acceptance of credit cards and the associated bank fees.
