MISSION STATEMENT

The mission of the Department is to educate and train community and educational leaders using the most advanced theoretical, managerial, and technological knowledge, skills, and abilities available.

STUDENT LEARNING OUTCOMES

Students who successfully complete the program for the M.Ed. in Educational Leadership Comprehensive will be able to demonstrate the following:

CONTENT

- Analyze personal needs, improving instructional skill, managing the classroom, designing curricula and instructional packages, formulating and evaluating instructional strategies and conducting research appropriate to one’s instructional role.
- Monitor the success of all students in the learning environment, align the curriculum, instruction, and assessment processes to promote effective student performance, and use a variety of benchmarks, learning expectations, and feedback measures to ensure accountability for all participants engaged in the educational process.
- Identify personal, political, social, economic, legal, and cultural relationships in the classroom, the school and the local community.

INTEGRITY/EThICS/CHARACTERISTICS

- Act with integrity, fairness, and honesty in an ethical manner.

COMMUNICATION

- Articulate a personal vision of their instructional role and the knowledge, skills, and dispositions to develop, articulate and implement a shared vision that is supported by the larger organization and the school community.
- Collaborate with families, business, and community members, respond to diverse community interests and needs, work effectively within the larger organization and mobilize community resources.
Project Management
- Manage the environment in ways that maximize the use of resources in an instructional organization and promote a safe, efficient, legal, and effective learning environment.
- Plan and implement the integration of technological and electronic tools in teaching, learning, research, and communication responsibilities.
- Plan effectively, use critical thinking and problem solving techniques, and collect and analyze data for continuous improvement of teaching and learning.

Assessment of Student Learning Outcomes
Educational Leadership students will acquire the skills that are necessary to become professionals. Students demonstrate what they have learned through classroom assignments, examinations, research and creative activities.
