Statement of Intent

As from 1 October 2005 until further notice, it is the intention of the University of Gloucestershire and The University of West Florida to explore and develop aspects of academic co-operation with a view to developing, if appropriate, detailed proposals and activities in areas of joint interest.

Such areas may include:

- Admission of students with advanced standing
- Advice and assistance with curriculum development
- Staff training and development
- Joint research
(see Annex 1 for further details)

Any proposals or agreements emerging from such discussion will need to be brought forward through both institutions’ approvals procedures, as appropriate, and fully supported by relevant documentation. There shall be no publicity relating to the potential outcome of discussions until a formal agreement has been signed.

Both partners have made available to the other details of their mission and objectives and on the basis of this information both hereby declare their willingness to begin co-operation discussions. Any information disclosed between both partners will remain confidential (except as may be required by Florida’s Public Records laws) and will not be used for any purpose other than these negotiations.

Until further notice each partner will bear their own costs incurred as a result of any co-operation.

This Statement of Intent is to be revised and reviewed on an annual basis.

Approved as to Form and Legality:
