- Select and defend an appropriate ethical and legal course of action

Project Management
- Design and execute reasonable timelines for project completion
- Collaborate effectively with diverse individuals
- Manage appropriately to facilitate project completion

Assessment of Student Learning Outcomes
In the Management Information Systems major, you will demonstrate specific knowledge and skills through quizzes, examinations, projects, and other assignments throughout the undergraduate program. For example, in the core BSBA course Policy Analysis & Formulation, you will be given an opportunity to demonstrate your academic accomplishments in a standard format through the production of a substantial case analysis. In the Management Information Systems specialization course Decision Support Systems, you will have the opportunity to showcase your academic accomplishments through the production of an independent decision support system to support needs of a decision maker. In most courses, you will have quizzes and examinations on the knowledge and skills covered in the respective courses.
