Student Learning Outcomes (SLOs) for the Basic Library Orientation Sessions are outlined below. Upon completion of this 50-minute session, students will be able to:

- Locate general library information such as hours, staff names and contact information, services, and forms, including how to renew a book online and submit ILL requests, using the library's Web pages
- Utilize the Course Reserve function to identify and access library materials placed on Reserve by instructors
- Identify ELi research guides that may be useful to one's current or future research
- Understand and apply the Library of Congress (LC) Classification scheme to determine appropriate areas of the library to browse for materials on a specified subject
- Perform a title, author, periodical, subject, and keyword search in the UWF online catalog
- Limit a search in the UWF online catalog by date, location, and format of material
- Understand the purpose and value of truncation, as well as how and when to use it, and correctly utilize the truncation feature when searching in the UWF online catalog
- Understand and interpret the components of a bibliographic citation in the UWF online catalog to determine whether an item found in the UWF online catalog is useful to one's information need
- Locate an item physically in the library based upon its call number and location provided in the UWF online catalog
- Confidently return to the library resources (whether physically or virtually), including its staff, for future assistance when needed
