The coolest thing about UWF is that people are here for you. Professors, staff, and other students are ready to help you in any way they can, as tutors, mentors, advisors, cheering section—and lifelong friends.

Virtual Art—The photo collage on the cover shows university buildings right next to each other. In reality, campus buildings are spread across a number of acres—and the surf is borrowed from Pensacola Beach.
The tutoring system is very good. It has really helped me a lot. Math is my strongest subject, but at times it gets tough, so having a private tutor on one on one was the difference between a ‘B’ and an ‘A’. And it’s free!

Weston Clarke
Computer Engineering
Mt. Vernon, NY

The professors are eager to help you with academic problems as well as personal problems.

Chemistry lab with Dr. Huggins
Advisors
As a freshman, sophomore, or new transfer student, you will automatically be assigned an academic advisor. Your advisor will:
— explain the requirements for a degree
— help you schedule your classes
— help you choose a major
— monitor your academic progress
— get you help with any academic problems.

Learning Center
The Learning Center at UWF offers the following services to students:
— individual tutoring
— computerized assistance through Cliff Study Software and other tutorial programs
— group tutoring sessions
— special help in preparing for CLAST, LSAT, GRE, and GMAT exams.

Math Lab
The Department of Mathematics offers a math lab where students can get individual and small-group help with basic mathematics, primarily college algebra, statistics, and calculus.

Writing Skills Lab
Trained teaching assistants are available to help you one on one if you want to:
— strengthen your skills in grammar, punctuation, sentence construction, word usage, and spelling
— be sure you understand manuscript format and documentation styles
— have your essay or paper reviewed for content, correctness, and style
— take sample English language skills tests.

Student Life Skills Course
In this course you earn college credit while learning the practical aspects of student life. You can:
— find out about all the resources on campus and how to make the best use of them
— improve your study habits
— learn how to manage your finances
— explore career possibilities
— make some good friends.

Counseling
Friends and mentors can help you with most problems, but sometimes you need more than they can offer. The Counseling Center is staffed by professional counselors who are available to help any student with personal, vocational, marital, and education problems. The service is confidential and free.

Mentors
Mentors are people who want to ensure your success, and they make a commitment to be there for you. There are two groups of mentors:

Student mentors—These are UWF juniors and seniors who help freshman and sophomore students adjust to campus life.

Professionals—These are UWF faculty and staff members, administrators, alumni, and community individuals who serve as mentors to juniors and seniors. These people offer support, encouragement, and information that will help students succeed in getting that all-important degree.

Career Center
The University Career Center is staffed by caring and experienced professionals who will help you:
— explore your career options in education, business, government, and industry
— develop an effective resume
— polish your interview skills
— set up on-campus interviews with recruiters from major business firms, school districts, or government agencies.

Other resources which you should take advantage of include:
— a library of information on more than 250 firms and agencies
— career planning materials
— computer-assisted career information system
— job vacancy listings.

Career Advising
The chairperson of your academic department, your faculty advisor, and individual faculty members will also be glad to help you get ready for the big step from classroom to career.
Campus Life

Learning is a process which goes on as much outside the classroom as inside it. You learn when you become involved in student government, Greek life, campus activities, sports, clubs, and volunteer service. As you get involved, you will also make some of the best friends you’ll ever have. UWF has more than 100 organizations, and every one of them would love to have you as a member.

The great variety in campus life is enriched even more by multicultural activities and by programs for international students. These programs enhance the experience which UWF offers to all of its students.

“This is my second year as a Student Ambassador, and I am thoroughly enjoying that. I’ve gotten a lot of experience in public speaking and meeting contacts for future references. I’ve been blessed a lot, being here at UWF. I’ve gotten to know a lot of people. I met my best friend here, and I’ve grown, not just as a person, but in how I define myself as Roleithia Mills.”
